Jim Brown informed me he could not read his sps file produced with the new version 2.5.0 of RSS. I found a bug - a single 8 bit bug, and it is now fixed. I apologize. I tested saving and loading but I did *not load the same file I saved with 2.5.0!*

Anyway Jim and anyone else who saved a file in 2.5.0 , I can probably fix your file if you saved it in 2.5.0. Just let me know how I can access the file. (TeamViewer, DropBox,etc.)

Here is the 2.5.1 update with the fix.
